Middlefield Road Redesign Project

San Mateo County has allocated over \$12 Million in funding to redesign Middlefield Road between Pacific and 5th Avenues. The County wants to make sure that upcoming changes to Middlefield Road reflect the community's priorities that were identified during the past few months (summary of community input available at www.NFOForward.org).

High priorities include wider sidewalks, bike lanes and parallel parking. A traffic study to show the impact of both the 3 and 4 lane roadway options is being done.

The results of this study will be shared with the [NFO Community Council](#) (NFOCC) and the broader community at two upcoming meetings. The NFOCC will be providing a recommendation to the Board of Supervisors about the design for Middlefield Road.

"It is the intent of the North Fair Oaks Community Council to ensure all opinions, ideas and key concerns will be taken into account when making a recommendation on the final design."

- Linda Lopez
Chair of NFOCC

North Fair Oaks Envisions a Healthy Community

H2O is the way to go! New research shows that too much sugar, especially sugar in liquids, can lead to diabetes.

To encourage more water consumption:

- Carry a refillable water bottle
- Stock the refrigerator with water
- Serve water with meals
